

NAPERVILLE SURGICAL CENTRE

Otolaryngology Privileges

Name				
Privileges Requested		Procedure	Privileges Approved	
Yes	No		Yes	No
		Adenoidectomy		
		Arch bar application, removal		
		Biopsy external auditory canal		
		Branchial cleft cyst excision		
		Bronchoscopy, diagnostic, with biopsy		
		Caldwell-Luc procedure		
		Closure tracheocutaneous fistula		
		Collumeloplasty		
		Debridement mastoid cavity		
		Debridement wound		
		Laryngoscopy: direct, diagnostic, with biopsy, excision lesions, stripping, injection vocal cords, removal foreign body		
		Ear exam under anesthesia		
		Ear piercing		
		Esophagoscopy: diagnostic, with biopsy, removal foreign body, removal lesions		
		Ethmoidectomy		
		Excision, biopsy, destruction lesions nasopharynx		
		Excision, biopsy, destruction lesions oral cavity		
		Excision, biopsy, destruction skin lesions		
		Excision lesion external ear		
		Foreign body removal, ear, nose		
		Frenulectomy		
		Frenulotomy		
		Incision and drainage abscess, hematoma		
		Intranasal biopsy		
		Laser surgery		
		Lymph node biopsy, excision		
		Mastoidectomy: simple, modified radical, radical, revision		
		Maxillary sinus endoscopy: diagnostic, with polypectomy, removal cyst, foreign body, fungus ball, mucus membrane		
		Meatoplasty		
		Myringotomy, with or without tube insertion		
		Nasal bone reconstruction		
		Nasal endoscopy: diagnostic, with ethmoidectomy, maxillary antrostomy, polypectomy, removal foreign body		
		Nasal fracture: closed/open reduction		
		Nasal polypectomy		
		Nasal septal perforation repair		

Name				
Privileges Requested		Procedure	Privileges Approved	
Yes	No		Yes	No
		Nasopharyngeal exam under anesthesia		
		Oral fistula repair		
		Orbital fracture repair		
		Ossiculoplasty		
		Otoplasty		
		Oval window fistula repair		
		Parotidectomy		
		Parotid tumor excision		
		Preauricular cyst excision		
		Reconstruction internal nose		
		Removal ear tubes		
		Rhinoplasty		
		Round window fistula repair		
		Salivary gland excision		
		Salivary gland stone excision		
		Septoplasty		
		Sinusotomy, maxillary		
		Skin repair by full thickness, split thickness or adjacent tissue transfer		
		Sphenoid endoscopy: diagnostic, with sphenoidotomy, biopsy, removal mucous membrane		
		Stapedectomy		
		Stapes mobilization		
		Submucous resection nasal septum		
		Thyroglossal duct cyst excision		
		Thyroidectomy, partial		
		Thyroid biopsy		
		Tonsil tag excision		
		Tonsillectomy		
		Tracheotomy		
		Turbinate surgery: cauterization, cryosurgery, excision, fracture, injection, submucous resection		
		Tympanoplasty: with or without ossicular chain reconstruction, synthetic prosthesis		
		Uvulectomy		
		Uvulopalatopharyngoplasty		
		Zygomatic Fracture: open/closed reduction
